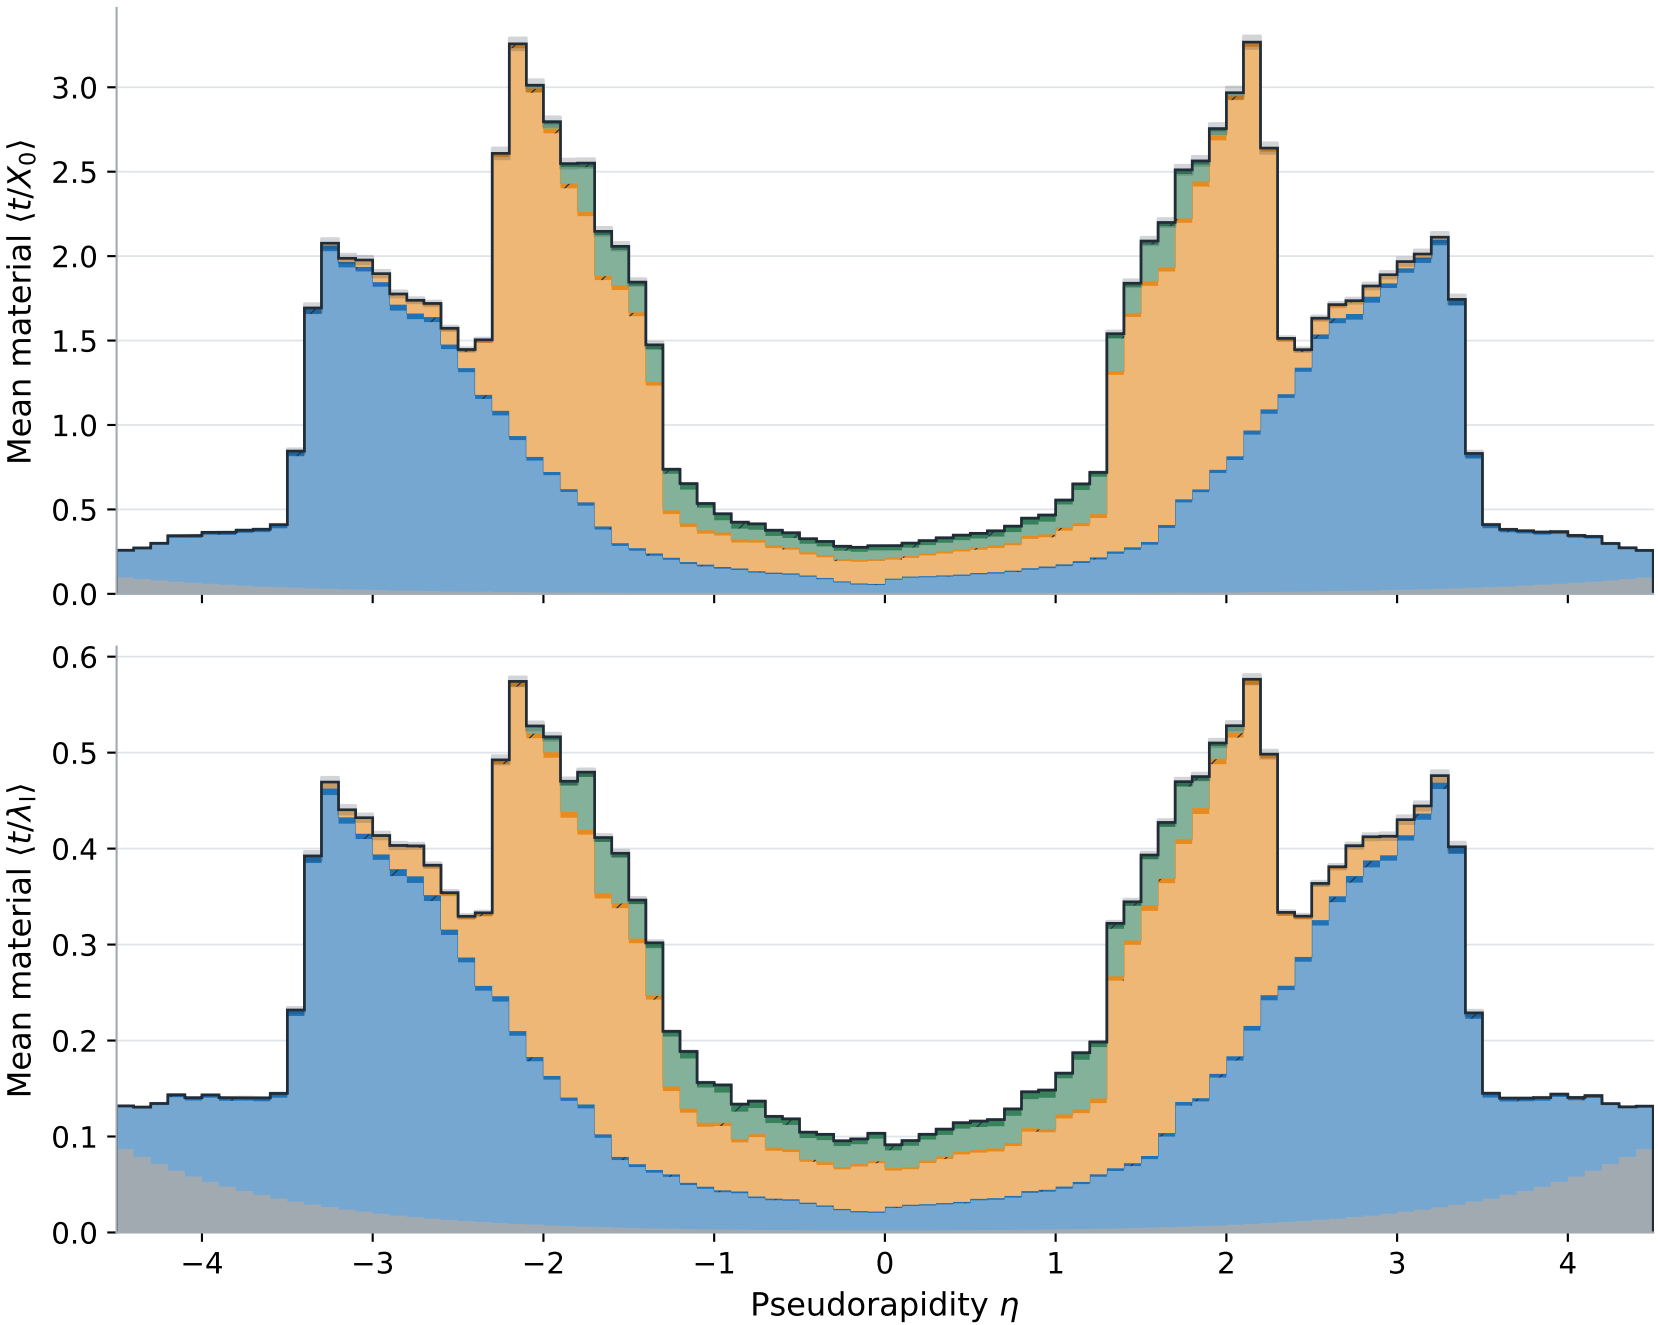
nODD tracker material budget

Geant4 geantino scan · 100,000 tracks · mean per geantino

Barrel and both endcaps combined; all tracks contribute to every component mean.



Material contributions

- Beam pipe · non-sensitive
- Pixel · non-sensitive
- Pixel · sensitive
- Short strip · non-sensitive
- Short strip · sensitive
- Long strip · non-sensitive
- Long strip · sensitive
- Total ± statistical SEM

Beam pipe has no sensitive component.

Sensitive = DD4hep sensitive-volume flag. Passive silicon (ASICs, guards and seams) stays non-sensitive.
